TRANSMITTAL LETTER

Dear Sir:

This is in response to the Office Action mailed May 16, 2005 and the Amendment filed September 29, 2005.

Subsequent to filing the Amendment of September 29, 2005, certain typographical errors were noted. The attached Supplemental Amendment has been revised to correct the typographical errors. In particular, Claim 16 has been revised to make it clear that the steps of "detecting", "dividing" and "reupdating" are a substep of the second step of "carrying out a reallocation."

In addition, Claim 25 has been revised to provide a further paragraph break before the phrase "inserting instructions to transfer stack variables...."

Further, the Remarks of original page 27 were revised at a single paragraph. In particular, the paragraph has been revised to read "In the absence of evidences given by the Examiner, no evidences are given that the invention was actually not reduced to practice by the inventor(s), the objection is unfounded to the Applicant."

In all other respects, the Supplemental Amendment is identical to the Amendment as filed on September 29, 2005.

The Examiner is requested to reconsider the application and to find the claims allowable on the basis of the Supplemental Amendment.

Respectfully submitted,

Michael L. Kenaga
